MEDICAL DIRECTOR
Petra Warren, M.D.

Our Vision

It is the vision of St. Luke's Free Medical Clinic to be the model for the delivery of quality and compassionate healthcare for Spartanburg's underserved community.

Our Mission

St. Luke's Free Medical Clinic changes the lives of underserved Spartanburg County residents by providing quality and compassionate healthcare.

Our Values

We believe that all individuals deserve access to quality medical care, regardless of ability to pay. We are committed to providing compassionate care to individuals with unmet healthcare needs in an environment that maintains the dignity of each patient.

Dear Friends,

The importance of partnerships to St. Luke's Free Medical Clinic cannot be overstated. With this Annual Report, we have decided to highlight some of our major partners. Some provide financial support and/or in-kind services and others offer on-site collaboration. Every one of these relationships is important to the success of our mission. Put simply, we get by with a little help from our friends.

2020 was a challenging year for everyone and uninsured, low-income people were among the first to lose their jobs when the COVID-19 virus first hit. The Clinic saw an increase in new patient requests and at the same time a decrease in onsite volunteers. Services were scaled back, but St. Luke's staff and Medical Director continued to care for patients while our pharmacy remained open. We saw this as a responsibility to the community and our patients.

Many have been lifting the St. Luke's community in all sorts of ways over the past year. Donations of masks, hand sanitizer, and other supplies poured in from local, state, and national organizations. The pandemic inspired many new donors to make a difference locally by supporting healthcare for the most vulnerable. Our funders responded immediately to the crisis with COVID Relief grants, and many held virtual "listening" sessions to make sure they were in tune with our needs.

If you are reading this, you are a valued friend and partner. By supporting St. Luke's Clinic, you are enabling us to continue providing quality medical care and critical medications to those in Spartanburg County who have no place else to go. As we all begin to resume our "normal" lives, we must not forget that our patients are experiencing an entirely different reality. We are grateful for this opportunity to thank you for making a difference in the lives of our neighbors who have been hit hardest by the pandemic.

Patsy O. Whitney

Board of Directors Chair

THE WALLACE PHARMACY FUND

Many of our patients suffer from one or more chronic diseases and require multiple medications, so pharmacy services play a critical role in the success of St. Luke's Free Medical Clinic's mission. While many drugs are obtained at no charge through State and National partners, the Clinic must still purchase generic drugs and diabetic supplies to have on hand for patients. In 2020, over 19,000 prescriptions were dispensed to 1700 individuals.

In 2019, SuSu and George Dean Johnson established the Wallace Pharmacy Fund in memory of their dear friends Anne Murray and William Andrew Wallace, M.D. To date, this fund has raised over \$34,000.00! These donations will enable us to continue providing our patients with much-needed medications and diabetic supplies through the Clinic's onsite pharmacy. We are beyond grateful to The Johnsons for establishing this fund. The legacy of Dr. and Mrs. Wallace will live on in the hearts of those whose lives will be changed with funds raised through The Wallace Pharmacy Fund.

WILLIAM ANDREW WALLACE, MD

ANNE MURRAY WALLACE

CHANGING *Lives*

Sassy had problems with her back and became depressed after losing her job and health insurance due to COVID-19. She became a patient at St. Luke's after hearing about the Clinic from a friend. She sends this special message to you:

“St. Luke’s has taught me there are good people out there to help you during tough times and they really care. They always treat me with respect and go out of their way to help me. I thank God for the Clinic’s staff and volunteers. To the donors, I’d say “Thank you times 1000! I don’t know what I would have done without St. Luke’s Clinic!” – Sassy

We are grateful to Sassy for sharing her story and consider it a privilege to have made a difference in her life.

QUALITY Care

The A1c test measures a person's estimated average blood sugar level over a past period of 2 or 3 months. The higher the levels, the greater the risk of developing diabetes complications. This test shows how well an individual is controlling their blood sugar levels over time. A1C target levels can vary by each person's age and other factors, but the goal for most adults with diabetes is an A1C that is less than 7%. The control of blood sugar levels has been linked to many health benefits, such as weight loss and reductions in blood pressure and cholesterol levels. Good glycemic control has been shown to reduce the risk for heart attack, stroke, and heart-related death.

"The management of chronic disease is a major part of our service delivery here at St. Luke's Free Medical Clinic, said Japonica Owens, Nurse Practitioner and Director of Clinical Services. "We have a large population of diabetics and we pride ourselves on the monitoring and following of patient A1c levels to try and reduce the likelihood of complications related to uncontrolled diabetes."

VCOM students Wade Hopper and Justin Fox conducted a research project in 2020 that evaluated diabetes care given at St. Luke's Free Medical Clinic. The study specifically focused on management and goal achievement of diabetic patient A1c levels. They reviewed patient records and compared the results of this study to published data of two other free clinics in the U.S. We are happy to report that St. Luke's compared favorably. Findings of this study showed that patients with uncontrolled diabetes experienced significant reductions in A1c levels at both 6 months and 1 year, and patients with controlled diabetes showed no significant changes. In conclusion, diabetes treatment at St. Luke's Free Medical Clinic is directly correlated with reductions in A1c levels.

This study has been submitted for publication and we are pleased to say that the efforts of our volunteers, staff providers and patients are paying off.

2020 Gold Rating FROM THE NAFC QUALITY STANDARDS PROGRAM

St. Luke's Free Medical Clinic has earned a 2020 Gold Rating from the National Association of Free and Charitable Clinics (NAFC) Quality Standards Program. By self-attesting that the organization has certain policies and procedures in place, it is able to highlight its commitment to providing quality care to patients.

The mission of the National Association of Free and Charitable Clinics is to ensure that the medically underserved have access to affordable health care. The NAFC and its members are dedicated to ensuring that patients receive quality health care. To quantify and qualify the care provided at the Free and Charitable Clinic network, the NAFC formalized a set of Quality Standards for member organizations.

NAFC Members voluntarily submit information to the NAFC on the various policies and procedures in place to attain their standards rating and attest/pledge that they successfully incorporate these standards within their organization. NAFC Quality Standards elements include policies and procedures related to the following areas: Administrative, Enhanced Access and Continuity of Care, Identifying and Managing Patient Population information, Planning and Managing Care, Providing Self-Care Support and Community Resources, Tracking and Coordinating Care, and Measuring and Improving Performance.

For more information on the NAFC, please visit www.nafcclinics.org.

ERIKA KIRBY | Executive Director of BlueCross® BlueShield® of South Carolina Foundation

St. Luke's receives a grant the BlueCross® BlueShield® of South Carolina Foundation, an independent licensee of the Blue Cross Blue Shield Association, to help provide their services. "The work and commitment of charitable medical clinics, including St. Luke's Free Medical Clinic, is inspiring. The staff, volunteers, and partners come together to address their patients' health needs yet they go beyond by asking and helping individuals get connected to other services and supports. The caring approach extended to patients engenders trust – which can oftentimes be the critical link to improving their health status."

TOM LAWRENCE | President of The Leon Levine Foundation

"Our Healthcare mission area invests in organizations that improve access to quality healthcare for a community's most vulnerable residents. We are committed to supporting programs that enrich the well being of individuals and their families. St. Luke's Medical clinic clearly aligns with this goal. By serving patients and improving health outcomes, the clinic is a valuable asset and a crucial component of the safety net for Spartanburg County. We are pleased to be a partner in advancing their work."

MOLLY TALBOT-METZ | President of The Mary Black Foundation

"St. Luke's Free Medical Clinic plays an important role in ensuring that people in Spartanburg County have access to high quality medical care. Over the years, I have seen St. Luke's grow its services and approach to meet the needs of our community. The Mary Black Foundation is proud to support organizations, like St. Luke's, that advance health equity."

TROY HANNA | President & CEO of The Spartanburg County Foundation

"As a community foundation, the Spartanburg County Foundation is pleased to partner with St. Luke's Free Medical Clinic both from a fiduciary capacity and a community leadership capacity to ensure that the critical mission of St. Luke's Free Medical Clinic is fulfilled for the residents of Spartanburg County."

PHIL FEISAL | President of Spartanburg Medical Center

"For nearly 30 years, St. Luke's Free Medical Clinic has been a tremendous asset to our community and a valued partner of Spartanburg Regional Healthcare System. From its very beginning, St. Luke's has been a community-led effort, and that spirit continues today through its health education programs and free clinical care. We are truly fortunate to have St. Luke's in Spartanburg."

PAIGE STEPHENSON | President & CEO of United Way of the Piedmont

"United Way of the Piedmont and St. Luke's Free Medical Clinic have partnered for many years. We recognize that access to healthcare is a key building block for individuals and families to thrive. Untreated chronic health issues and high medical expenses can stand in the way of stable employment and being able to make financial ends meet."

MATTHEW CANNON, DO, FACFP | Dean of VCOM Carolinas Campus

"St Luke's has been and continues to truly be an invaluable partner with VCOM. The learning experiences that St Luke's provides our future physicians is priceless. Anytime there is an opportunity to volunteer at St Luke's, our medical students jump at the chance because they value and respect the faculty, the staff and especially the patients. There is no doubt that we are a better medical school because of St Luke's."
